04. LOOKED AFTER CHILDREN & PRIVATE FOSTERING

Identification

A ‘Looked after Child’ is a child in public care, which is placed with foster carers, in a residential home, or with parents/carers or other relatives.

We are committed to providing quality provision based on equality of opportunity for all children and their families. All members of staff at ASK are committed to doing all they can to enable ‘looked after’ children in our care to achieve and reach their full potential.

Children become ‘looked after’ if they have either been taken into care by the local authority, or have been accommodated by the local authority (a voluntary care arrangement). Most looked after children will be living in foster homes, but a smaller number may be in a children’s home, living with a relative or even placed back home with their natural parent(s).

We recognise that children who are being looked after have often experienced traumatic situations; physical, emotional or sexual abuse or neglect. However, we also recognise that not all looked after children have experienced abuse and that there are a range of reasons for children to be taken in to the care of the local authority. Whatever the reason, a child’s separation from their home and family signifies a disruption in their lives that has an impact on their emotional well-being. Most local authorities do not place children under five with foster carers who work outside the home; however, there are instances when this does occur or where the child has been placed with another family member who works. It is not appropriate for a looked after child who is under two years to be placed in a day care setting in addition to a foster placement.

We place emphasis on promoting children’s right to be strong, resilient and listened to. Our policy and practice guidelines for looked after children are based on two important concepts: attachment and resilience. The basis of this is to promote secure attachments in children’s lives, as the foundation for resilience. These aspects of well-being underpin the child’s responsiveness to learning and enable the development of positive dispositions for learning. For young children to get the most out of educational opportunities, they need to be settled enough with their carer to be able to cope with further separation, a new environment, and new expectations made upon them.

Principles

- The term ‘looked after child’ denotes a child’s current legal status; this term is never used to categorise a child as standing out from others. We do not refer to such a child using acronyms such as LAC.
- We offer places for funded two-year-olds who are in care to ensure they receive their entitlement to early learning. In such cases, the child should have been with the foster carer for at least two

months and show signs of having formed a secure attachment to the carer, and the placement in the setting will last a minimum of three months.

- We offer places for funded three and four-year-olds who are in care to ensure they receive their entitlement to early education. We expect that a child will have been with a foster carer for a minimum of one month and that they will have formed a secure attachment to the carer. We expect that the placement at ASK will last a minimum of six weeks.
- We will always offer 'stay and play' provision for a child who is two to five years old who is still settling with their foster carer, or who is only temporarily being looked after.
- Where a child who normally attends ASK is taken into care and is cared for by a local foster carer, we will continue to offer the placement for the child.

Procedures

- The Designated Safeguarding Lead for looked after children is the designated child protection co-ordinator.
- Every child is allocated a key person before they start, and this is no different for a looked after child. The Designated Safeguarding Lead ensures the key person has the information, support and training necessary to meet the looked after child's needs.
- The Designated Safeguarding Lead and the key person at ASK will liaise with agencies, professionals involved with the child and his or her family and ensure that appropriate information is gained and shared.
- ASK recognises the role of the local authority children's social care department as the child's 'corporate parent' and the key agency in determining what takes place with the child. Nothing changes, especially with regard to the birth parent's or foster carer's role in relation to ASK, without prior discussion and agreement with the child's social worker.
- At the start of a placement there is a professional's meeting to determine the objectives of the placement and draw up a care plan that incorporates the child's learning needs. This plan is reviewed after two weeks, six weeks and three months. Thereafter at three to six monthly intervals.
- The care plan needs to consider issues for the child such as:
  - their emotional needs and how they are to be met;
  - how any emotional issues and problems that affect behaviour are to be managed;
  - their sense of self, culture, language(s) and identity, and how this is to be supported;
  - their need for sociability and friendship;

- their interests and abilities and possible learning journey pathway; and
- how any special needs will be supported.

- In addition the care plan will also consider:
  - how information will be shared with the foster carer and local authority (as the 'corporate parent') as well as what information is shared with whom and how it will be recorded and stored;
  - what contact the child has with his/her birth parent(s) and what arrangements will be in place for supervised contact. If this is to be at ASK, when, where and what form the contact will take will be discussed and agreed;
  - what written reporting is required;
  - wherever possible, and where the plan is for the child to return home, the birth parent(s) should be involved in planning; and
  - with the social worker's agreement, and as part of the plan, the birth parent(s) should be involved in ASK' activities that include parents, such as outings and fun-days etc. alongside the foster carer.
- The settling-in process for the child is agreed. It should be the same as for any other child, with the foster carer taking the place of the parent, unless otherwise agreed. It is even more important that the 'proximity' stage is followed until it is visible that the child has formed a sufficient relationship with his or her key person for them to act as a 'secure base' to allow the gradual separation from the foster carer. This process may take longer in some cases, so time needs to be allowed for it to take place without causing further distress or anxiety to the child.
- In the first two weeks after settling-in, the child's well-being is the focus of observation, their sociability and their ability to manage their feelings with or without support.
- Further observations about communication, interests and abilities will be noted to form a picture of the whole child in relation to the Early Years Foundation Stage prime and specific areas of learning and development.
- Concerns about the child will be noted in the child's file and discussed with the foster carer.
- If the concerns are about the foster carer's treatment of the child, or if abuse is suspected, these are recorded in the child's file and reported to the child's social care worker according to ASK' safeguarding children procedure.
- Regular contact should be maintained with the social worker through planned meetings that will include the foster carer.

- The transition to school will be handled sensitively. The Designated Safeguarding Lead and/or the child's key person will liaise with the school, passing on relevant information and documentation with the agreement child's social worker in the care plan.

Private Fostering

Parents have often made arrangements for their children to be cared for by other people for temporary period of time. For example, young people and their parents may need a breathing space apart; children may come from abroad for their education or children may have been sent to the UK out of fear for their safety in their country of origin.

These arrangements may be called Private Fostering. The children are not in the care of the local authority but live with families by a private arrangement between their parents and their carers.

Regulations for Private Fostering

The local authority has a duty to ensure that children who are privately fostered are being properly cared for. This is done by social workers assessing and monitoring the homes where the children are living, until the children reach the age of 16 or move back to live with their parents.

What should you do if you suspect a child is privately fostered?

If we know of or suspect a child living in Hounslow is being privately fostered, we will call Hounslow Children's Services Front Door on**: 020 8583 6600** or Fostering Duty on **020 8583 3426.** By doing so we are ensuring that the privately fostered child will be visited by a social worker to ensure that they are safe and well cared for. The private foster carer will also be offered practical and financial advice and support.
